About 'a Person' Shawn Han

“Diligence and interaction skill”

Raised in a family where my parents emphasized character education and consideration for others, I became a person who is considerate in all aspects of communication and relationship skills. Thanks to my lively personality and interaction skills I was frequently appointed as a student leadership position in various school and sports activities and received a great sense of achievement while performing a leadership role. In the process, I learned how to overcome various difficulties through diligence, tenacity, and with the cooperation of others. Based on my diligence, teamwork, and consideration for others, I hope to become a “Team working Developer” and make contributions at your company.

School and activities

After completing military service in 2011, I worked as an HR assistant at KT and fostered my skills in communication and customer service. Moreover, I was assigned as a student leader while attending Yeungnam University and played a key role in leading others to achieve common goals. Additionally, by exerting efforts in my school work, I received excellent grades and won scholarships

for two years. With the recommendation of the professor, I began working for Diageo and aggressively handled sales-related marketing activities. I am proud to say that I have achieved many positive results through hard work and perseverance.

Work experience

While performing sales of liquor and related products, I came to realize that identifying the needs of clients and understanding the strengths of the company's products and benchmarking of competitors were crucial to the sales success. With this understanding, I developed and conducted customer-specific sales to achieve positive sales results.
